DO SOMETHING YOU'LL NEVER FORGET

## InterContinental San Juan Completing Renovation

Published on: March 19, 2009

The InterContinental San Juan Resort & Casino is undergoing a makeover that includes rooms, lobby area, casino and even the room service menu. Since 2000, when IHG took over the 402-room property, the company has invested more than \$42 million to the Isla Verde property to maintain brand appeal. More than 90 percent of the transformation is completed. After a \$14 million investment in 2008 which included room, lobby and pool deck renovation, this AAA four-diamond property is getting ready to provide customers a new and improved InterContinental experience. In May, the hotel will start its \$4 million casino renovation, which is slated to be finished in July. The casino will offer new machines that promise a diversity of options to choose from, where one will be able to find poker, black jack, slot machines and other options.
